

## JOIN THE CLEAN ENERGY STORAGE REVOLUTION

**XRG** is a technology company developing customized clean energy storage solutions. **XRG** utilizes vanadium redox flow battery technology powered by its own supply chain. **XRG** mitigates the cost and carbon footprint and more than doubles the power and energy density of competing technologies.

**Infinite scalability**  
**Modular assembly**

**Most efficient integration**  
**with renewable technologies**

**"Plug & Play" Flexible**  
**power & capacity**

**Non Flammable**  
**Low temperature & pressure**

**Low cost and sustainable**  
**Infinite electrolyte reuse**

**More than 100,000 cycles**  
**100% Depth of Discharge "DOD"**
